📂 Projects

Travel and Tourism Management System ↗   Jun 2023 – Aug 2023
  - To develop this project, I leveraged the power of Java, making use of Java Swing and AWT to craft an intuitive and visually appealing user interface. For seamless data management, I integrated JDBC (Java Database Connectivity) to interact with a relational database using SQL, ensuring data integrity and efficient retrieval of information.

Social Media Content Management System (MERN Stack) ↗   Oct 2024 – Nov 2024
  - A scalable MERN stack social media backend enabling user profiles, content uploads, and engagement tracking. It supports image and video uploads, a follow system, and tracks likes/unlikes per post. Built with React, Node.js, Express, and MongoDB.
